

ZAINAB UMAR IBRAHIM

Frontend Developer

E-mail: xieumar@gmail.com

Github: github.com/xieumar

SUMMARY

Detail-oriented Frontend Developer and Computer Engineering graduate with strong expertise in React, Next.js, and TypeScript. Proven ability to build responsive, user-centric web and mobile applications using modern UI libraries like Tailwind CSS and shadcn/ui. Passionate about creating seamless user experiences and clean, maintainable code.

EXPERIENCE

Frontend Developer — Emerj LLC (Remote)

December 2025 – Present

Contract / Part-time

- Contribute to user-facing features for production web applications using React, Next.js, TypeScript, and Tailwind CSS.
- Translate Figma designs into accessible, responsive, and pixel-accurate UI components.
- Integrate REST APIs and manage async data flows, loading states, and error handling.
- Collaborate with designers and backend engineers in a remote, product-driven environment.
- Participate in code reviews and iterative UI improvements to enhance usability and performance.

Frontend Developer — HNG Internship (Finalist)

October 2025 – December 2025

Program based. Remote

- Advanced to the final stage as one of 450 finalists selected from over 12,000 applicants in a highly competitive software engineering program.
- Built and contributed frontend features using React, Next.js, and TypeScript under strict weekly deadlines.
- Collaborated in cross-functional remote teams to deliver production-style functionality.
- Implemented reusable UI components, handled async state, and integrated APIs following modern frontend best practices.

PROJECTS

Telex

<https://telex.im/>

- Contributed to core product features including the Buzz feature and file management workflows.
- Resolved critical UI and business-logic bugs in a production environment.

Audiophile

<https://audiophilehng.netlify.app/>

- Built a full-featured e-commerce application with Next.js and TypeScript.
- Implemented product browsing, persistent cart, and secure checkout using Convex and Zustand.
- Delivered a responsive, polished UI with Tailwind CSS.

Tourify

<https://tour-app-virid-kappa.vercel.app/>

- Engineered Tourify, a full product-onboarding platform that enables users to design multi-step interactive tours, generate embeddable scripts, and manage secure access using Next.js, TypeScript, and Supabase.
- Built a real-time analytics and management dashboard with a polished, responsive UI using Tailwind CSS and shadcn/ui.

EDUCATION

University of Maiduguri– Maiduguri, Nigeria
B.Engr Computer Engineering

October 2019 – December 2025

SKILLS

Frontend & Mobile

React, Next.js, React Native (Expo), TypeScript, JavaScript (ES6+), HTML5, CSS3

Styling & UI

Tailwind CSS, shadcn/ui, Material UI, Ant Design

State & Data

REST APIs, Async Data Handling, Zustand, Supabase, Convex

Tools & Workflow

Git, GitHub, Figma-to-Code, Responsive Design
